How to Associate a Blackboard Rubric

Under the Assessment area, edit the assignment content item to create a link to the rubric.

1. Under Grading, point to Add Rubric to access dropdown list and choose option:
   - Select Rubric associates a rubric that you created in the Rubrics area of Site Tools.
   - Create New Rubric opens a new window to allow immediate creation of a new associated rubric.
   - Create From Existing uses a previously created rubric as a template to create a new associated rubric.
2. Click Select Rubric. Pop-up window appears.
3. Point to relevant rubric and select. A confirmation message appears.
4. Click Submit.
   - If message about assigning the Points Possible appears, click OK as the points should be correct from earlier rubric creation.
5. To set rubric visibility, point to Show Rubric to Students to access dropdown list for options:
   - No does not allow students to view the rubric at any time.
   - Yes (With Rubric Scores) allows students to view the rubric when you make the item available, including possible point or percentage values, and your feedback comments.
   - Yes (Without Rubric Scores) allows students to view the rubric when you make the item available, but does not include the possible point or percentage values, or your feedback comments.
   - After Grading allows students to view the rubric only after you have completed grading their submissions.
6. Click Submit.
