

VIDEOWALLS SPECIFICATIONS & DESIGN GUIDE

Southern Cross University has videowalls at Lismore and Gold Coast campuses.

The Lismore videowall is located in the Learning Centre.

The Gold Coast videowall is located in Building C at the entrance to the library.

The productions span across multiple screens in portrait composition at Lismore and landscape composition at the Gold Coast.

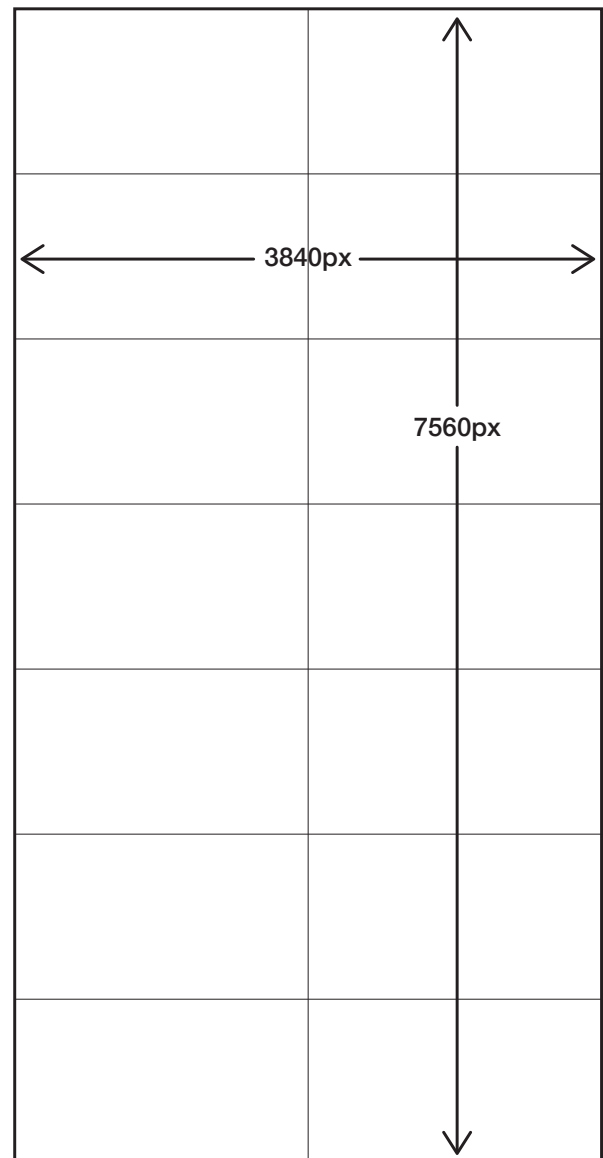

The Videowalls are windows to the University and its community, exhibiting a wide range of video, animation and photographic works.

LISMORE VIDEOWALL

- 14x HD LCD displays arranged in a 2 wide x 7 high array.
- All content will be previewed for aspect ratio compatibility with current specifications.
- All content will be previewed for appropriate content subject matter meeting with a G (General) rating.
- To run video over the entire 14 screen array it should be shot vertically in portrait format at 4K or higher then scaled and cropped appropriately.
- Images and video can be scaled to maximum of 2x to fit the space and still retain visual integrity.

CONTENT CREATION

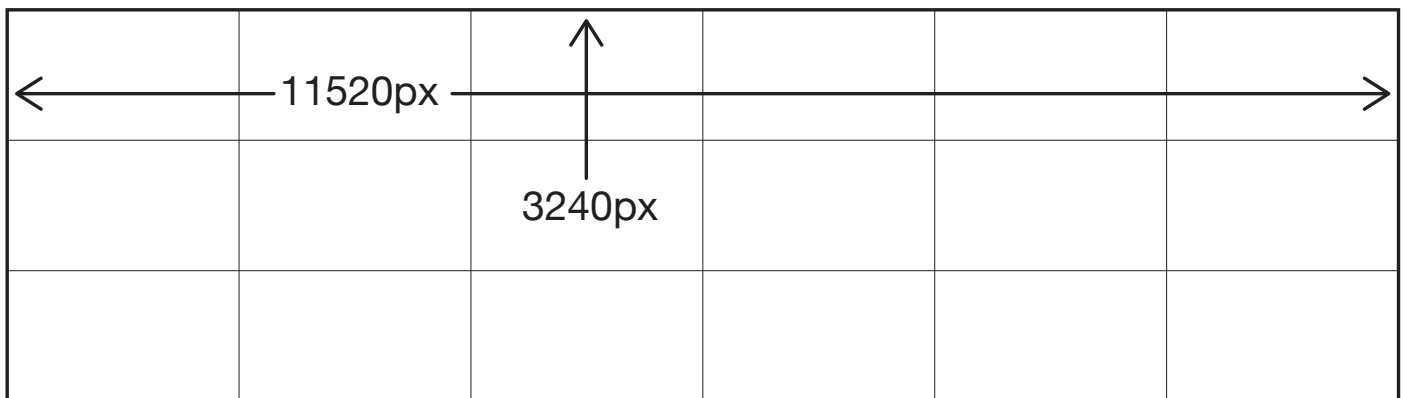

- Image size: 3840px wide x 7560px high
- Image formats: JPG, PNG, PDF, PSD
- Video size: 1920px wide x 3780px high
- Video formats: .MP4, .MOV
- Content will be post processed by Production Services Team and placed within the existing schedule of half hour blocks.

VIDEOWALLS SPECIFICATIONS & DESIGN GUIDE
